

## Multilayer Label Converting Kit

More layers for higher margins – your ticket to the multi-layered world of sandwich labels with a simple extension that allows you to produce high-quality multilayer labels on your existing equipment.

### Features

- Produces sandwich labels (the easy way)
- Joins up to 3 layers of adhesive material webs
- Extends your existing label printing machinery
- Integrated solution for non-contact web handling

### Advantages

- Space-saving design
- Compatible with any label printing press
- Simple upgrade, fast and easy installation
- Available in different sizes
- Durable and reliable
- Intuitive operability

### Application

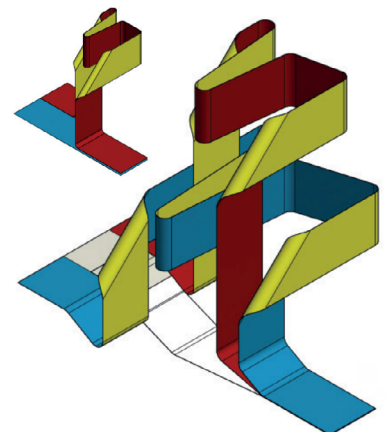

- For label printing and packaging machine companies
- Sandwich labels for fast moving consumer goods, food, pharmaceutical products, cosmetics, etc.
- Multilayer labels for industrial goods

### Plug & Play

- No electrical connection necessary
- No adjustment of the machine control necessary
- Seamless integration into or between your existing label printing or converting machines
